

drugs not working anymore

Lyrics

Oh i can tell i can feel the pain again
Slowly coming back
No longer hidden by chemicals
Like shadows walking in the light

Each memory like a whisper
Echoes of days gone by
Searching for a way to heal
But i got myself asking Why

Why must i let it return
Why must i stop all the chemicals
Why must I continue the hurt
Why why why

Yeah the drugs anit working anymore
There no longer in control
Ill rise and face the truth once more
But the drugs donr work anymore

From the emptiness of my soul
Through the darkness through it all
Yeah i find my strength but i cant let go
Cuz these damn drugs dont work anymore

From the emptiness of my soul
Ill rise to face the truth once more
Im no longer in control
From these chemicals
These drugs are not working anymore

Throught this darkness
Through it all
Find my strength that i cant ignore
Dont want the pain to return
When these drugs are not anymore

From the emptiness of my soul
Im no longer in control
From these chemicals
These drugs are not working anymore

anymore
